Subject: For Nov 15 board meeting
Date: Tuesday, November 14, 2023 11:35:10 AM

Dear MMWD Board Members,

Thank you to the staff for their hard work in developing the report. I agree that we need to emphasize the need to reduce out door watering with potable water.

I ask that board please direct staff to determine the cost of accelerating the conservation goal from 2045 to 2030.

Subject: Comments for MMWD's 11/15 Communications & Water Efficiency Committee Meeting
Date: Tuesday, November 14, 2023 11:19:15 PM

Dear MMWD Board members,

I am so sorry to miss your 11/15 Communications & Water Efficiency Committee Meeting but I am sending my comments via email.

Many thanks for all the work you and your staff have spent to develop the Water Efficiency Plan.

As you probably know I have been attending many of our Board of Directors meetings to speak up about my concern that our Marin residents conserve water now and in the future.

For now, I will just be saying that I do hope to hear that that a way is found to dramatically reduce the use of our potable water for outdoor watering.

Also, I know you will be hearing this next comment from others but I am submitting it too. As I look into the future for my children, my grandchildren and all those yet to be born I hope your Board can find a way to move your conservation goals from 2045 to 2030. It seems quite evident to me from what I read every day that we are running out of time!

Thank you for considering my comments.
